

## County Pledges Its Aid For \$5,000,000 Sierra Madre-Arcadia Drainage Job

### Council Asks Help For Canyon Park

Seeks Assistance From Flood Control District For Property Owners

A resolution requesting an allocation of funds from the county flood control district for relief of taxpayers in Canyon Park was adopted by the city council Wednesday night.

Ben J. Grammel and Mrs. Carrie Nash, both of Canyon Park, appeared before the Council and stated that taxpayers in the district are still paying assessments on property which has been taken over by the flood control body. The property involved, they pointed out, is a 30-foot strip running through Canyon Park.

Mr. Grammel and Mrs. Nash stated that the flood control people have been using Woodland Drive as a thoroughfare while carrying out improvements at Santa Anita Dam.

Acknowledging the justice of their complaint, the Council tabled the resolution, at the same time informing Grammel and Mrs. Nash that a conference will be arranged between the Council, Canyon Park property owners and A. Benell, representing the county special assessment relief committee. Tentative date set for the conference, which will again attempt to seek some sort of relief for solution of the Canyon Park situation, was set for April 1.

### Club Women First Guests At The Fete

Japanese Princess Charms Listeners At Reciprocity Luncheon Under The Vine

Attired in an exquisite wistaria morning kimono, Princess Tami Togo, flower ambassador from Japan, charmed listeners at reciprocity luncheon of the Sierra Madre Woman's Club Wednesday at the wistaria vine with descriptions of tea ceremonies and flower arrangements, a vital part of the cultural education of a Japanese miss.

The Japanese are masters in this culture and evoke the spirit of meditation, beauty, poise and calm in their students as early as eight years of age. Before a young girl is ready for her debut, she must be able to make flower arrangements at any time, in calling, with or without her friends.

"Flower arrangement in Japan is symbolic of every occasion," said Princess Togo. "If one has moved into a new home, yellow and white flowers are placed inside the door. If a hostess is entertaining visitors who are going away, table decorations are chosen to indicate a voyage."

The first book on flower arrangement was written in 1,000 B. C., the Princess said, and she explained in detail the meaning of flowers for each month in Japan.

Represented at the meeting were many out-of-town clubs, the local club being honored with the presence of Mrs. Grace Y. Hudson, chairman of the State Federation; Mrs. Frank Owens, county president; Mrs. F. D. Cummings, Alhambra; Mrs. R. W. Ross, Temple City; Mrs. Fredrick Schwartz, Monrovia; Mrs. M. Magan, El Monte; Mrs. Nellie White, Arcadia; Mrs. Peggy Wel, Altadena; Mrs. W. A. Sweetson, Baldwin Park; Mrs. Charles Kromer, Los Angeles; Mrs. R. A. Bobedette, South El Club, Los Angeles; Mrs. Anna Meade, Arcadia; Mrs. Burt Werry, Altadena; Mrs. Estelle Smith, Highland Park; Mrs. Ned Reed, Glendora; Mrs. Whittier; Harriett Morrell, Pasadena; Mrs. W. B. Fleet, Los Angeles; Mrs. James Munger, Altadena; Mrs. Guy M. Knox, San Gabriel; Mrs. H. G. Durand, West El Club, Los Angeles; Mrs. Sam Boner, Los Angeles; Mrs. M. Slattery, Tujunga; and Mrs. John Zaccarello, Puente. Many past presidents were present, and were introduced by Mrs. W. J. Lawless, who presided.

### Big Flood Control Project Must Be Financed By Various Interests

A resolution by the county supervisors, assuring cooperation of the board with the city in the Sierra Madre-Arcadia drainage basin project which is to be undertaken as a major flood control scheme, was filed by the city council Wednesday night.

The county board authorized the flood control engineer and the county surveyor to act as coordinators and to work with the various agencies to the end that an early project may be assembled and submitted to the WPA.

The \$5,000,000 project calls for four major runoff drains here which will be located along Lima street, Baldwin avenue, Sierra Madre Blvd., and Orange Grove avenue. A fifth drain will run south on Mt. Trail avenue to Grand View avenue and thence east to the spreading basins.

"The state highway department, the county flood control department, the cities of Sierra Madre and Arcadia, the Santa Fe Railway and private corporations have a joint interest in flood control protection works," the resolution stated.

"Coordinated activities of the group may result in raising cooperative funds, such sums to provide a sufficient contribution to federal work agencies."

### Over \$25,000 Already Spent On Wistaria Fete Grounds

According to a financial report of the budget committee of the Sierra Madre Wistaria Fete Association, submitted this week approximately \$25,000 has been spent in pre-Fete expenditures, to make Wistaria Gardens at Scenic Point the most beautiful showplace in Southern California.

Of this amount approximately \$5,677.00 has been spent on labor, 98 percent of which went to local residents. All lumber and hardware used in construction of buildings, materials for the beautiful new stone wall, and much of the nursery stock was also purchased locally. Local plumbers, painters and electricians have been kept extremely busy, between showers, keeping pace with gardeners.

A crew of men in addition to the 47 regularly employed on the grounds, has been put to work to give the final touches before the formal opening of the Fete tomorrow.

### Added Fire Protection Is Assured

#### U. S. Makes Appropriation For Sprinkling System Along The Mountainside

Work of repairing the city's pipe line leading from the Quarter Way House in Santa Anita Canyon to the reservoir at the head of Auburn avenue, so that the line may be utilized as the basis of a gigantic foothill fire prevention system, will get under way in April, William V. Mendenhall, Angeles National Forest supervisor, informed Paul N. Carter, chairman of the utilities and conservation committee of the Chamber of Commerce this week.

The Forest Service contemplates finishing the work prior to the beginning of the summer when fire hazard is greatest.

The project will include the re-pairing of the line throughout its entire length, some two miles; cleaning out and repairing the intake basin at Quarter Way House, constructing a fire trail paralleling the line, and installing lateral lines which will extend several hundred yards out from both sides of the main line. At a later date the service hopes to construct a large reservoir at the head of the line so as to provide additional pressure.

The service will expend approximately \$800 for materials and the project will provide about 1000 man-days of labor.

The project was okayed by the City Council Wednesday night, following receipt of a letter from Mendenhall outlining the work contemplated.

The Chamber of Commerce and city officials cooperated in securing the project.

### One-Way Traffic To Wistaria Fete Agreed Upon

Regulations governing handling of traffic to and from this year's Wistaria Fete, opening tomorrow, envision routing of automobiles north on Lima street to the new West Carter avenue extension and thence east to parking lots in Floral Canyon, Chief of Police McMillan announced yesterday, following discussion of the subject by members of the City Council and the city business manager Wednesday night, after the appearance before the Council of Sidney Jewell, representing property owners in the vicinity of Scenic Point.

Leaving Scenic Point, drivers will proceed east on Carter avenue and thence south either on Auburn or Baldwin avenues.

"No Parking" signs will be posted on Carter avenue between Lima street and a short distance east of Auburn avenue and on Hermosa avenue between Carter and Auburn avenues.

Every effort will be made to avoid traffic congestion and to route motorists speedily and efficiently through the areas immediately surrounding Scenic Point.

The regulations, with a few minor changes, approximate those outlined in a traffic control plan submitted to the City Council by Mr. Jewell, 560 North Hermosa avenue. His plan called for one-way traffic on Hermosa and Auburn avenues north of Carter avenue.

### Grand Jury System Is Explained

First-hand facts about the county grand jury system were given approximately 400 Sierra Madreans and out-of-town residents by Deputy District Attorney Eugene Blalock at a dinner meeting at the Masonic Temple Tuesday night.

Discussing the selection of jurors, Blalock, who is counselor for the present county grand jury, said that five names are picked by each of the 50 Superior Court judges. From these 250 names 19 are then drawn for jury duty.

In passing he mentioned that politics frequently dictated the selection of grand jurors in former years. At one time, he said, a notorious gambler was appointed to the grand jury; at another time a man who was not an American citizen, and at still another time a dead man.

Blalock said that grand jurors, once they have been impaneled, are prone to consider themselves super-lawyers, super-detectors and reformers.

Duties of grand juries nowadays are confined solely to deciding whether or not indictments should be brought, he pointed out, although originally these bodies tried as well as indicated people.

Turning to the subject of sit-down strikes, Blalock pointed out their illegality—and absurdity. "Suppose," he said, "you came home one day and found your house barricaded and your servant girl staging a sit-down strike. And suppose she called out to you that you couldn't get in your home until you agreed to pay her whatever wages she felt she ought to get. What would you do?"

"You'd do exactly what Donald Douglas and every other manufacturer has done. You'd call the police and have the servant girl clapped into jail."

"Los Angeles county," he affirmed, "will not tolerate sit-down strikes!" His statement was warmly applauded.

Pat West, Chamber of Commerce secretary, announced that C. A. Harworth of the All-Year Club of Southern California will address a mass meeting here on April 2.

Mastering the ceremonies with his inimitable dry humor was Lee Shippey, well-known Sierra Madre newspaperman.

### Miss Morgridge To Give Recital In Pasadena

Miss Elizabeth Morgridge, Sierra Madre's accomplished young violinist, will give a violin recital next Tuesday evening in the Hotel Vista Del Arroyo auditorium in Pasadena, beginning at 8:30 o'clock. Harlow John Mills, guests artist, will be the accompanist.

Having won the Southern California district young artists competition in Los Angeles, Saturday, Miss Morgridge is giving this recital to help in financing her trip to New York later this year for important auditions.

## Good Friday Easter Plans At Churches

### Sunrise Services At Inspiration Point And Special Services Arranged

Commemorating the darkest day in Christian history, devout Sierra Madreans today will attend divine services in memory of Him who died on the Cross.

A Tre Ore service will be conducted at Mater Dolorosa Monastery from noon to 3 p.m. Father Cyril will deliver the discourses on the "Seven Last Words," with singing by the children of St. Rita's parochial school.

Appropriate services will be conducted at Church of the Ascension and at St. Rita's Shrine. There will be a 10 o'clock prayer service at Church of the Ascension, followed by meditation on the Words from the Cross from 2 to 3 p.m.

Easter Sunday, sacred day commemorating the joyous resurrection of Jesus, will be appropriately observed by all Sierra Madre churches Sunday.

Pageants, religious dramas and programs of beautiful Easter music will be presented in churches at morning and evening services.

To sing the praises of the resurrected Christ, sunrise services, commencing at 6 a.m., will be held at Inspiration Point in Canyon Park Sunday. The services will be conducted by Major and Mrs. Donald Johnston, Pasadena Corps, Salvation Army. The city will furnish benches for worshippers. Boy Scouts will direct the parking.

Preceding the services, the Inspiration Point cross will be lighted all night Saturday.

Choral Eucharist and Easter music, featuring the anthem, "This Is the Day," together with a short Easter message by the rector, Dean Arnold G. Bode, will comprise the 11 o'clock service Easter morning at Church of the Ascension. Other services during the day will include Holy Communion at 7:30 a.m., children's service and offering of Lenten mite-boxes at 9:30 a.m. and baptisms at 3 p.m.

"The Resurrection" is the title of the sermon to be delivered by Rev. Stewart R. Sheriff at the 11 o'clock service at Bethany Church. At the evening meeting, the pastor will speak on "The Storm-Revealed Christ."

"Life Eternal" will be the topic of the Easter Sermon by Rev. A. O. Pritchard at the 11 o'clock service at the Congregational Church. The Sunday School will hold a special Easter service at 9:30 a.m. to which parents and friends are invited. There will be an Easter service for the young people at 6:30 p.m.

Fifteen of the priests at Mater Dolorosa Monastery this week are performing preaching missions in the various Los Angeles parishes.

Yesterday saw the start of the Easter holidays for pupils at St. Rita's parochial school. Classes will take up again a week from Monday.

Boys and girls at the public school, now enjoying their annual Easter-week vacation, will return to school on Monday.

## Kids Easter Party Will Have Music

### Orchestra To Enliven Egg Hunt And Other Events At City Park Tomorrow

Colored Easter eggs and gay Easter baskets will gladden the city's youngsters tomorrow at the fire department's annual Easter party at the city park.

The affair will get under way at 1:30 p.m. with a gala Easter egg hunt. Hundreds of rainbow-hued eggs, hidden throughout the park, will be eagerly rooted out by laughing, shouting youngsters.

After the egg hunt there will be races for all boys and girls from 2 to 12 years of age. Prizes will be awarded the winners of each race.

Then will come the eye-opening climax to the afternoon—the distribution of the Easter baskets. A departure this year will be a tuneful musical accompaniment to the proceedings, furnished by a WPA orchestra.

The firemen, today busy completing last-minute preparations, plan to make it the gayest boys and girls Easter party in the city's history.

## Mayor Heads Board Of Governors For The Drama Guild

An instructive lecture on costumes and dress of the Empire and Civil War periods was given by Mrs. L. C. Dillman at the last meeting of the Senior Drama Guild. Mrs. Florence Eakman announces the appointment of a board of governors: Mayor H. C. Reavis, Waverly Pratt and Dean Arnold Bode.

## Streets Made Gay With Fete Colors

### Tinted Boughs Direct Visitors To Annual Spectacle On Scenic Point

Graceful boughs of lavender-tinted eucalyptus stationed along all main arteries leading to Scenic Point tomorrow will greet Sierra Madre's guests on the opening day of the city's most beautiful and imposing Wistaria Fete.

Lining Sierra Madre Blvd., North Lima street and the lower end of Baldwin avenue, the decorations will add a striking and original note to this year's Fete.

Aside from the artistic effect, they will serve the purpose of guiding sightseers easily and quickly to the Fete grounds over the new route to West Carter avenue.

Work of readying the foliage for opening day was being rushed to completion yesterday.

After considerable study, eucalyptus boughs were recommended by an official of the Pasadena Tournament of Roses Association, Alfred James Dewey, who is supervising the work, pointed out yesterday.

## Harworth To Address A Meeting Here

Charles A. Harworth, secretary of the All-Year Club, will discuss the value of the tourist business to Southern California at a public meeting, sponsored by the Sierra Madre Chamber of Commerce, next Friday evening, April 2, at the school auditorium.

Mr. Harworth, one of the most interesting talkers in California, will also outline the duties and aims of the All-Year Club.

R. C. Lewis, vice-president of the Sierra Madre Savings Bank, will preside.

The program, which will get under way at 8 p.m., will also include musical entertainment.

## Winter Laps Into Spring Lion-Like

With meteorological experts forecasting still another storm in the offing, Wednesday's sporadic showers brought .44 of an inch of rainfall and raised the season's total here to 32.90 inches, highest in 15 years, and more than double the 15.10 inches recorded at this time last year. The city water-well level yesterday stood at 144 feet, 4 inches.

Stealing Old Man Winter's thunder, Spring staged a weather show Monday that ran the gamut from sunshine to snow and raised the total of rainfall at the official gauge 1.12 inches.

Within a period of 12 hours the freak storm served up a melange of rain, hail, snow, thunder and lightning and sunshine. During the day the mercury here inched from 41 degrees to only 52—and then sank to 36 degrees early Tuesday morning.

Snow fell heavily in the adjacent mountain area and caused the Angeles Crest Highway to be closed to general traffic at a point five miles from Mt. Wilson's summit where 9 inches of wet snow lay on the level around the observatory.

Despite the heavy downpour here, developing into almost a cloudburst late Monday morning, no local damage was reported.

Two springs made their appearance here during the day. One developed at the entrance to the settling basins and another in the back of the Wheatley house on Churchill Road.

Just to polish off a season of the most unusual weather most Sierra Madreans have ever experienced, there was a mild tremor at 8:49 yesterday morning that some local residents felt.

## Glorious Setting Promises Real Thrill For City's Guests At The Fete

### Many Celebrities Will Join Newspaper Folks In Preview Of Festival To-day

What is confidently predicted will be the city's most elaborate and beautiful Wistaria Fete today makes its debut when publishers, editors and staff writers of Southland newspapers will gather for luncheon under Sierra Madre's giant wistaria vine at Scenic Point.

Tomorrow the Fete, which will continue until April 18, will be opened to the general public. Appropriately, the day will climax the first week of spring.

A minor miracle will greet sightseers who, tomorrow, will wend their way in an unceasing stream to Scenic Point.

Center of attraction, of course, will be the grand old vine, a gigantic canopy of feathery lavender bloom, supported by a huge pergola which now occupies the site of the former Fennel house.

Round and about the vine will be all manner of new and breath-taking attractions.

Rare plants and shrubs, as well as the more familiar carnations, azaleas, daphnes and roses, will delight horticulturists and laymen alike.

Round the ornamental stone wall enclosing the grounds will be glimpsed the delicate-hued blossoms of peach, pear, quince, cherry, almond and apricot trees.

Over in the southwest section of the grounds will be the English garden, planted with roses. Work of readying the garden was completed yesterday, under the supervision of Charles Gibbs Adams, noted horticulturist, who this week also superintended the moving of the city's daddy chirimoya tree from the former Norman Bridges property on North Auburn avenue to Scenic Point.

Flower beds, garden pools and a greenhouse stocked with choice plants and baby wistaria vines will capture the visitor's attention.

Overlooking Floral Valley will be still another attraction—the observation platform. From it may be had a view taking in the entire sweep of the San Gabriel Valley, with the blue Pacific in the distance.

But there is more yet. Topping the spacious terraced grounds will be the glass-enclosed pavilion, a broad veranda running across its south side and affording a bird's-eye view of the vine and the grounds.

Tomorrow, to the tunes of strolling troubadours and the rich fragrance of a million wistaria blooms, the dream will come true.

## Artists To Compete During Fete

### Many Noted Southland Painters Will Seek Outdoor Views In Sierra Madre

Sierra Madre—town of artists. Such, in a large measure, will be the impression carried away by visitors to the city's 1937 Wistaria Fete, opening tomorrow.

The artists colony here is rallying wholeheartedly behind Sierra Madre's greatest of all Fetes. Helping to start off this year's festival with a bang, prominent artists from Pasadena, Beverly Hills and Monrovia will join with local brush-wielders tomorrow and Sunday to stage a gala two-day painting spree along the streets leading to and from Scenic Point.

The spectacle of art in the making is promised Fete visitors over the weekend and throughout the Fete while painters vie for prizes for best canvases of Sierra Madre scenes.

Besides a host of big-name artists, the entire art class of Alfred James Dewey will be on hand, painting and sketching.

But this isn't all. During the course of the Fete prominent local artists will exhibit oil paintings, etchings and lithographs in the glass enclosed pavilion atop Scenic Point.

Throughout the festival, as announced in last week's NEWS, artists from all over Southern California will come here to paint and sketch. They will compete for cash prizes put up by the Chamber of Commerce and the Wistaria Association.

## City Moves To Boost Water Supply

### Report Says Wells And Tunnels Will Meet Any Emergency

Expenditure of \$1500 for the improvement of city water well No. 1, increasing the production from 1356 gallons to 1900 gallons per minute, was authorized by the City Council Wednesday night, following recommendation for a third well or for improvement of one or the other of the city's existing wells by City Treasurer C. J. Pegler, Charles Washburn, Hoyne Wells and D. F. Morton, representing citrus growers and horticulturists of the community.

Prompting the Council's action was a report on the city's water system submitted by Al S. Myers, city business manager.

In his report Myers pointed out that one well running 24 hours a day plus the output from the city's water tunnels would be ample to carry over the city during the maximum consumption period, which is represented by the months of July, August and September. He pointed out further that the city has approximately a 2½ day's storage capacity in the reservoirs.

Calling attention to the fact that maximum water consumption, according to records, was 8,663,200 cubic feet in August, 1932, he said that well No. 2 has a capacity of 8,962,560 cubic feet over a 30-day period, at a rate of 24 hours a day, and that "we may safely count on 1,500,000 cubic feet from the tunnels over a 30-day period during the coming season," thus assuring a margin for 30 days, based on well No. 2, of 299,360 cubic feet plus the output of the tunnels. The figures, Myers said, will allow the city one well as a standby well.

He also stated that both wells are producing more this year due to the rise in the water table and that well No. 2 produces considerably more than well No. 1.

## Poets Vie In Description Of The Vine

### Rhymers Will Contend For Prizes In Extolling Scenic Point Wonder

The Sierra Madre Wistaria Vine will be a inspiring sight. Impressive and enduring proof of its inspirational power is expected in the poems to be submitted in the Sierra Madre Wistaria Vine Poetry Contest which the Sierra Madre Wistaria Vine Association announces through its Poetry Chairman, Ralph Cheyney.

Anyone may enter this contest and send one, two or three poems not longer than 30 lines each. The poem may be in any verse form, including free verse. It should reflect the beauty of the famous wistaria vine so that the world may know how inspiring it is. Each poem should be submitted anonymously, accompanied by a sealed envelope bearing the name of the poem and containing the name and address of the poet. The poems should be new—that is, never before published and preferably perpetuating the glory of the vine's 1937 blooming. As the contest is being widely publicized, this should bring many poets to Scenic Point. Three cash prizes are offered. Fifteen dollars will reward the author of the best poem. Ten dollars will be the second prize. The third winner will receive five dollars.

The tentative closing date is April tenth.

The winning poems will be featured at a Poetry Evening during the Wistaria Fete and published or quoted, as the authors prefer, in "Horizons," organ of the Western Poetry League. The distinguished board of judges will be announced next week; one of them is the nation's most famous poets who visited Sierra Madre last summer and was deeply impressed by its beauty.

Poems should be sent to Ralph Cheyney direct or to the Sierra Madre Wistaria Vine Association marked for the contest.

## GRAVE DANGER AHEAD

To the Editor of the  
Sierra Madre News:

There are certain phases of our National life that, to say the least, are most disquieting and, unless corrective measures are put in motion, must lead to the gravest dangers to the Republic.

First, the general apathy of the people toward subversive influences.

Second, the determination of certain groups to destroy the present set-up.

Third, the plan of the New Deal to set up a dictatorship by usurpation.

Fourth, the ambition of John L. Lewis and his cohorts, to set up a dictatorship of the workers by violence.

All of these directly or indirectly, intentionally or ignorantly are playing into the hands of the Third International at Moscow, whose motto and determination is world revolution.

What the great mass of our citizenship do not know and are unwilling to believe, is that the paid propagandist of Bolshevism is working insidiously, covertly, but effectively, in every square mile of territory in the United States, and the attitude of the administration on most public questions, together with the unbridled license of labor leaders, are the means by which the Communists seek to secure the future enslavement of America.

Roosevelt's Supreme Court plan has been exploded, blown up, exposed for just what it is—a scheme of usurpation—and has no relation to the general welfare, and the brutal disregard for the courts and the law on the part of certain labor bodies adds more fire to the revolutionary process.

The American Republic must live. With these subversive movements there must be no compromise. It must be a fight to the finish.

On the Statue of Liberty in New York harbor is the inscription, "Liberty, Enlightening the World." We need a return to the kind of Constitutional liberty that prevailed in America at the time that statue was given us by the French. For if democracy and ordered liberty fail now in America, world civilization will go down in chaotic anarchy.

It is easy to catalogue those who support present trends.—The politician afraid of his job. The self-seeker who cares nothing for the public welfare but is ambitious for power and place. The blind, partisan followers who think the king can do no wrong. And great masses of voters who have failed to read their history aright. For the same trends that prevail in America today can be read in the history of every great nation of the past that has fallen into decay and oblivion.

In all the world's history, every great nation that rose and fell was destroyed from within. It is being tried here and now, by many, intentionally, by most, ignorantly.

Law enforcement, reverence for the Constitution and the law, self-dependence, self-respect, and a return to the individualism of our fathers—these, and only these—can save the Republic, and secure the blessings of liberty to ourselves and our posterity.

## HELP THE BIRDS

To the Editor of the  
Sierra Madre News:

I will ask that you publish the following suggestion as I know from experience it will bring happiness and comfort to our feathered friends, who in return bring us joy and happiness with their songs.

Go to any garage and purchase five cents worth of waste, that they use to wipe up oil with. It does not absorb moisture like wool or cotton. Cut this into two inch lengths, then take a board, say 18 inches long—scatter the waste on this and cover it with a piece of chicken wire with a two inch hole, and lay this out in the yard and watch the birds come and pull out the strings with which to make their nests soft and comfortable, where the mother may sit and be nice and dry. The rain will not moisten such a nest.

By doing this you will bring the birds to your home to make their nests and bring happiness to yourselves knowing you have done a kind deed.

Yours for more songsters,  
WM. LAUREN RHOADES.

A factory in Great Britain is manufacturing 500,000 gas masks a week and will continue the pace until 30,000,000 are produced. These are being made for civilian use in anticipation of the day when enemy airplanes may spray poison gas on congested English cities and communities.

Despite the fact that a learned professor recently characterized "the stork myth" as an outrageous and scandalous bit of medieval mummery, the stork still flies high! Marking up a 5 per cent increase, according to the State Department of Public Health, the year 1936 brought 84,460 new arrivals to California, via the stork special. Los Angeles County, first in line, reported 32,027 births. Alpine County, to be different, reported none.

California has a total of 18,488 employers now registered as subject to the Unemployment Reserve Act, it was officially announced yesterday.

Motels states further the latest count of employees registered under the act is 1,258,166. Unemployment benefits will start January 1, 1938, when eligible employees will receive from seven to fifteen dollars per week for from 13 to 20 weeks if they are out of work.

Income tax collections during the first 25 days of March totaled \$652,307,522, an increase of about 67 per cent over the same period last year, Treasury officials report.

They point out receipts for the remainder of this fiscal year will have to be counted before it can be determined whether they will

Gaddin' Around  
with  
BILL PEET

If two of our young pitchers come through and deliver—the Pirates will win the National league championship this year" said the greatest short stop and one of the greatest players baseball ever knew—Hans Wagner—when I talked with him Sunday in the California Hotel, San Bernardino.

Wagner is Chief Pittsburgh coach, a close friend and advisor of Manager Harold (Pie) Traynor. He has well passed the half century mark, is very grey and possibly carries a bit more weight than formerly. But nobody knows baseball better than Hans Wagner and when he ventures a prediction it means something.

With the publisher of THE NEWS I motored to the camp of the Pirates mainly because both of us at one time worked on a Pittsburgh newspaper and we were interested in the doings of the ball club and the Pittsburgh scribes that came out with it.

I talked with Manager Traynor, Jewell Ens, his assistant, Johnny Gooch, a former catcher who has charge of the young pitchers, and also the owner of the club, H. S. Benswanger.

The Pirates fairly oozed optimism. If ever a ball club was optimistic before the season opened, the Pirates are the club.

"The National league race this year is going to be a great one," declared Traynor, "I can see only four ball clubs that have a look in and we are one of them. I doubt if the Giants will repeat, but the Cubs will be hard to beat and also the Cardinals. That's the layout and we certainly have a chance to grab that old flag."

Traynor expects to be back in the game again at third base. He was out all last season with a sore arm, but is apparently in good shape now. Incidentally he slashed out three hits in four times up Sunday during a club game between the Pirates regulars and the Yannisians.

I am not predicting a pennant for the Pirates, but when men like Wagner and Traynor place their cards on the table and tell me that the Pirates have a fine chance to win the title, I am willing to string along with them.

The Pirates for the National League entry in the 1937 Baseball Derby is my prediction.

The annual Wistaria Fete officially opens tomorrow and Sierra Madre is going to be filled to the brim with visitors who will come from all parts of the state and country.

I am heartily in favor of the suggestion that our townsfolk get their front yards and lawns in order and by that is meant, have them attractive so

BILLS AT SACRAMENTO WOULD  
RAISE FOOD PRICES AND  
BANKRUPT BUSINESS

By RALPH H. TAYLOR  
(Executive Secretary, Agricultural Council of California)

SOME 50 labor bills, affecting agriculture either directly or indirectly—many of which, if enacted, would inevitably increase farm overhead and therefore cost of farm products—await the action of California lawmakers at Sacramento.

In the much-abused name of "social justice," some of the more visionary proposals would work serious injustice on thousands of farmers and, in the final analysis, would hurt the worker as well as his employer.

Roughly, the measures can be divided into four classifications: 1—Radical legislation, designed to let down the bars to "direct action." 2—Bills dealing with strikes and lockouts, featured by numerous propositions to create labor arbitration boards. 3—Legislation to shorten hours and increase rates of pay. 4—A series of amendments to the Workmen's Compensation Insurance Act which would sharply increase farm compensation insurance costs.

Heading the list of radical legislation is the bill to repeal the Criminal Syndicalism Act. Repeal of this necessary safeguard would have the effect of declaring an "open season" for Communists and radical agitators, intent on fomenting riots and bloodshed as forerunner to their dream of revolution.

As an aftermath of the maritime strike and other labor disturbances, several proposals for the establishment of labor relation boards have bobbed up in both houses. Best of the lot, perhaps, is Senate Bill 241, by Senator Biggar, setting up an industrial court of seven members—three chosen from the ranks of labor, and the seventh not to be identified with either group—with the court having jurisdiction over all labor disputes. The act makes it unlawful for any employer to engage in or threaten a lockout; it likewise makes it illegal for employees to strike, or threaten to strike, and prohibits picketing. The court's decisions on all cases involving hours of labor, rates of pay, etc., would be final.

Many and varied are the other arbitration acts, some making arbitration compulsory; others making the boards mainly advisory. The success or failure of any such plan, however, would be largely dependent on the type of board appointed. If a board could be secured which would act justly

store is now doing business. "Doc" Elk was the only chiropractor and did very well. He "pepped" up the young men by taking an active interest in sports. M. D. Welsher's grocery store and Charley Davis' meat market were side by side on Baldwin avenue. Gene Hollinger arrived to assume charge of the News Stand with Frank as his partner. The old fire engine was parked in "Shorty" Steinberger's garage, (now Frank Lovell's) and the boys put on many a friendly boxing bout, the big bell on the fire engine clanging to announce the end of a round. Fred Richter ran a bakery in the spot now operated by Adam Hauck and Richter made a prime pumpernickle that was not hard to take. Ellen had a beauty shop over Warren Craig's store and did very well for herself.

Another beautiful sunny Sunday and more mountain trail climbers appeared for a day's outing. "The Barrets of Wimple Street" will be remembered as stirring film drama. Now we have the "Barrett's of Baldwin Avenue"—they opened a frock shop yesterday. Another new business for Sierra Madre. Aloha Nui—Meaning in Hawaiian, Good bye and good luck. See you all next week.

earnings on which such claims are based; would require that disability payments start immediately, instead of after the eighth day; would add attorney's fees to the employer's bill, and would require 7 per cent interest on all deferred award payments. Similarly, a bill by Senator Olson would increase compensation in injury cases from 65 per cent of the worker's average earnings to 75 per cent.

## New Schedule For Rubbish Collections

### Red Tags Will Be Handed Householders Violating Clean Up Regulations

A new schedule and regulations governing garbage and refuse collections was announced yesterday, with city officials declaring that complete cooperation by the public is urgently necessary if the city is to continue the service of garbage, rubbish and trash removal.

Simultaneously, it was announced that henceforth householders who neglect to take in their garbage cans and can boxes within 24 hours after collection will be handed a red ticket, or "summons." It will then be necessary to take the ticket to the police station and to explain the reason for not removing the cans and boxes. If the ticket-recipient can offer no valid reason, the city will discontinue collecting his garbage and refuse and the householder will be required to hire some other collection agency.

Garbage collections will be made east of Baldwin avenue every Tuesday and Saturday and west of Baldwin avenue Monday and Friday. Garbage must be placed on curb in tightly-covered receptacle on pickup days by 7 a.m.

Collections of tin cans, bottles, crockery, metals, etc., will be made on the first and third Tuesday of each month in the area east of Baldwin avenue. West of Baldwin avenue collections will be made on the first and third Tuesday of each month in the area east of Baldwin avenue. West of Baldwin avenue collections will be made on the second and fourth Tuesday of each month. Tin cans and other rubbish of non-inflammable character should be placed on the curb the previous day. No garbage will be allowed with rubbish.

Collections of trimmings and other trash will be made on the first Wednesday of each month east of Baldwin avenue, and on the last Wednesday of each month west of Baldwin avenue. Tree trimmings, grass cuttings and other inflammable trash should be placed on the curb separate from tin cans and other non-inflammable trash the day before collection.

No collections will be made on days other than those announced. Householders setting out trash at any other time will be required to remove it within 24 hours or the city will remove it and charge the expense to the owner.

## Fire Flames

By One of the Boys

WHEN Marion Hays and Vern Udell appeared at the fire station last Monday morning, they looked like fellows with a big bet on the last horse. For many days and late nights they had been working to get the new road into the Wistaria Grounds graded and packed. On Monday morning early they expected to surface it for traffic. Shortly after midnight the heavens dropped torrents and all the boys could do was to watch the new dirt wash away. The only thing Hays could think of to cuss was Joe Swanson, for Joe had predicted that this would be a year with 40 inches of rain. A few more inches and the "Scotchman" will be classed as a sage.

The First Aid class held on Thursday evening has been well attended by firemen and from the way some of the bandages were applied, we'd say this is a game that can be easily forgotten if not practiced regularly.

All is in readiness for the Easter Party to be held at the City Park on Saturday. The boys spent an evening coloring eggs and what the eggs were denied in dyes, the fellows got on their clothes and faces. The kids are not the only ones to have a good time from the Easter Party.

Wives and girl friends of the firemen spent Thursday evening preparing the Easter baskets for the party. Such a job could not be trusted to the men.

Roy Walsworth was unable to attend the last meeting, due to sickness, while Frank Hildebrandt is reported as improving rapidly.

## Altadenans Will Hold Easter Sun- Rise Service

Arthur C. Eldred, supervisor of the Pasadena and Glendale District, Federal Music Project, has provided a 70 piece orchestra for, and arranged the orchestral numbers to be played at the Easter sunrise service to be held at the County Park, Lake avenue and Concha streets, Altadena, Sunday morning at 5:45. Mrs. Grace Sayre, for six years official soloist at Mt. Wilson Easter services, will be the singer, and she and the community singing will be accompanied by the orchestra.

The Altadena Woman's Club, assisted by various civic organizations, will sponsor the service. Members of Boy Scout troop No. 1, Altadena, will furnish buglers and a traffic control committee. A public address system will be provided. Picnic facilities are provided in the park for those who wish to bring their breakfasts.

### ALL-YEAR CLUB TELLS THE WORLD ABOUT SIERRA MADRE AND ITS WISTARIA FETE

City And Its Great Vine Described In Coast-To-Coast Radio Talk

DON THOMAS, managing director of the All-Year Club told the world about Sierra Madre and its annual Wistaria Fete on Thursday.

"Sierra Madre is a quiet and beautiful little city nestling in the lap of Mt. Wilson," Thomas said in a coast-to-coast radio hookup as a prelude to a description of the great Chinese wistaria vine. Since his address the Chamber of Commerce has received more than a score of requests for booklets and information about the city. In his radio talk Thomas said:

"Cynics tell us today that we no longer have time to look upon mere beauty. But, you know, I do not think this can be true. Men build fortresses . . . they build tall structures . . . mighty dams and stalwart bridges . . . and fame, it's true, crowds in their door. And yet, when a thing of beauty becomes known, it too becomes a mighty force . . . and fame will find it, no matter where it may be.

"An example of this is the great wistaria vine at Sierra Madre, and when in the spring it stretches forth its many arms, thousands of people answer its call and come to walk amid its lavender loveliness.

"Each year the people of Sierra Madre hold a festival, inviting everyone from near and far, to share in the fairyland spell cast upon the community, by the blossoming wistaria. While there is a wistaria in almost every garden and door-yard in Sierra Madre, the annual Fete centers about the old Chinese vine that was planted 44 years ago at Scenic Point by Mrs. Alice Bruggman, and which has now become the world's largest, most famous wistaria, and has given the city the honorary name of the Wistaria Town.

"Already the first blooms are beginning to show color, and little by little the grey arms of the vine are becoming dotted with blossoms, growing more and more each day, until finally, on the eve of Easter, the purple flowers will hang thick and heavy, and Sierra Madre will once more hold its pageant of the Wistaria.

"The Wistaria Fete this year will begin on Saturday, March 27, and for three weeks, until April 18th, a million bursting buds will blend their varying tints of pink and blue and white and purple, with the lovely tones of the surrounding mountains. As you wander through this fragrant bower of loveliness, the friendly wistaria will nod above you, dropping tiny lavender petals upon your shoulder, while the carpet of fallen blossoms at your feet grows thicker and lovelier . . . and the ever changing color of the mountains turns radiant purple in the sunset glow.

"Nature never paints her canvas twice alike, and as many times as you visit Sierra Madre to breathe in the beauty of its famed wistaria, so many times will you find a new picture. Loving hands have nurtured this amazing vine as it passed from one owner to another . . .

"Sierra Madre is a quiet but delightful little city nestling at the foot of Mount Wilson. Many of its people have won prizes in the National Garden contests, and all of them are proud of their charming surroundings . . . The city's charm as a place in which to live has attracted many famous people, including noted writers, artists and musicians.

"The Western Poetry League are sponsoring a poetry contest in connection with the Wistaria Fete, with cash prizes for the best unpublished poem about the wistaria vine. Artists are tempted by a contest for the best outdoor paintings made in Sierra Madre during the three-week celebration. The wistaria vine has already inspired many lovely paintings and poems— and who knows what famous classics these contests may inspire.

"No, I do not think we can agree with the cynics who think that modern people have no time for mere beauty. The Wistaria Fete at Sierra Madre alone disproves their theory, because each year thousands of people from every state in the Union and from almost every nation, pass through the gates to walk beneath the famous vine. A huge guest register lists their names and proves again the mighty force that a tiny flower seed may ultimately wield in the world.

"Approximately, on the day before Easter, the people of Sierra Madre will send out their joyful message—'The Wistaria is in bloom. Come and walk with us in beauty . . . it will bring you rest and inspiration . . . and a memory that you'll never lose.'

### Leading Roles For Ramona Assigned; Rehearsals Start

With the selection of Victor Jory and Jean Inness to play the leading roles in "Ramona," California's spectacular outdoor play, attention now is turned to the rehearsal plans for the many groups used in the production. The famed play will be given in Ramona Bowl near Hemet-San Jacinto April 17-18, 24-25 and May 1 and 2.

Organization and training of the huge cast of 250 requires weeks of preparation and all except the principal roles are played by residents of the two towns.

Presented as a community, non-profit enterprise "Ramona" is given by the people of Hemet and San Jacinto to perpetuate the beauty and grandeur of historic early California. The play is staged in a natural amphitheatre in the rugged hills within sight of majestic Mt. San Jacinto.

### Film Celebrities In Mounted Parade At Polo Tourney

Leading figures of filmland will gather at Riviera Country Club Sunday afternoon for the annual Easter Equine Parade, a gala event which always brings out celebrities of the social and screen world.

A beautiful array of fine horses with riders turned out in faultless attire compete for the prizes offered for various classes in formal and informal riding costumes.

Two fast polo matches, climaxing the Spring Tournament that has been in progress for several weeks, and special equestrian jumping events will provide an outstanding program for this colorful annual occasion.

### Legionnaires Will Plant More Trees

Memorial Grove At Charlton Flats Will Be Augmented On April 11

San Gabriel Valley Legionnaires and their wives, including the Sierra Madre Post, will again journey up to Charlton Flats on April 11 to plant pines and cedars in the Legion memorial grove. Sponsored by the conservation committees, the outing will be open to all Legionnaires in the local area.

The ex-service men will meet Major Jack Kaye of the U. S. Forest Service at Red Box at 9 a.m. and then proceed on to Charlton Flats. The women will provide the lunches.

Last year more than 200 trees were set out in the grove. The trees are provided by the Forest Service.

### Vaudeville Show For PTA Benefit At Wilson Jr. Hi

Friday, April 2, at Wilson Junior High School, open house starting at 7 p.m., will be followed at 8 o'clock by a P.T.A. welfare benefit vaudeville program in the Willard Auditorium.

During open house, the periods will be run off at ten minute intervals, and the teachers will meet the students and parents in the classrooms. The purpose of these programs is to create and maintain a better understanding between parents, students, and teachers.

The benefit vaudeville program will be under the direction of Pat West, who will provide the talent. The proceeds will be used to improve conditions among the students of the Wilson school. Patrons and students are urged to attend.

● An electric range is good news to the house budget because it saves money several ways. It saves by avoiding cooking failures—burned roasts, soggy cakes, vegetables stuck to the pan. It saves because the sealed oven eliminates food shrinkage which amounts to as much as 25% in some types of food. It saves because an electric range automatically entitles you to the low wholesale domestic rate which reduces the average cost of all the electricity you use. Finally, and most important, it saves the cook's nerves and temper ● You will really enjoy the time you spend cooking in your electrically equipped kitchen and the cost is amazingly low. ## Every Member Of The Larsen Family Has A Hobby

HERE'S a whole family of hobbyists—Mr. and Mrs. W. W. Larsen, Billy 8 and Milton 5, of 155 Olivera Place, who came to Sierra Madre last October from Pasadena. Every member has a hobby.

Daddy Larsen is a lawyer with an office in Pasadena. He is an amateur magician and a fine entertainer with many tricks up his sleeve. He edits a magazine on magic, "Genii" and is studying medicine on the side. The boys are also magicians in a small way and Billy writes jingles.

Mrs. Larsen, known to her many friends as Gerry, writes amusing plays in verse and puts them on as puppet shows. She does some of her husband's magic, sings, impersonates and is also a ventriloquist.

Mother Larsen does not neglect her family either. She seems to have plenty of time to sew, knit, play the piano and sits in for an occasional game of bridge.

Mr. Larsen has, according to her friends, considerable literary ability and has published several books for children. She loves to write and finds the time after the children are in bed and her husband busy with his law or medical books. She believes that writing is an ideal vocation for a wife and mother.

Life in the Larsen family is never dull or uninteresting, for everybody has a hobby and they intend to make Sierra Madre their permanent home.

## Sierra Madre's Hobby Is To Encourage Hobbyists To Hobby

Our City Produces Nearly Every Variety With No Age Limit

A town whose hobby is the encouragement of hobbies is the way Robert O. Foote, staff writer on a Pasadena newspaper, describes Sierra Madre in an article in the March 7 issue of the New York Times.

"There is a fine school building with a large hall and a public auditorium, in Sierra Madre," Foote writes. "Whether it was erected entirely for education is debatable; certainly the most popular events ever held there are the hobby shows which are put on from time to time as 'extension of personality' exhibitions."

Foote describes a typical Sierra Madre show as follows:

"A trailer, in which one hobbyist had traveled 17,000 miles, was put on display one night. Another hobbyist, luckily just in receipt of his 'bonus' money, displayed a ticket to China—travel being his hobby also."

"Miss Thomasella Graham exhibits photographs of her garden, 'Italia Mia,' Lynne Farman, who heads the Pasadena Tournament of Roses Parades, shows both her Palomino horses and her decorative paintings. A California aviator shows tiny sculptures in iron, of grotesque figures in action poses, above cigaret trays. The Japanese orchardists of the vicinity send displays of their native arts. The small boys come to look at the stamp collections of their elders."

"When the people have seen enough of the hobby displays they adjourn to the school auditorium. They sing, play harmonicas, do fancy dances, recite amusing pieces, perhaps original compositions with sly local references. All take part, from the village firemen to leading citizens of the nearby metropolis."

## P. T. A. ENJOYS JAUNT FROM THE ARCTIC TO SOUTH SEAS

FROM the Arctic to the South Seas in two hours was the glamorous experience of the P.T.A. audience gathered to hear Glen Robert Kershner at the monthly meeting. A weaver of magic tales was he whom the Polynesians call "Manu Reva Mata Ara Ara"—a bird that comes and goes and never sleeps. Recapturing the halcyon days spent in the island paradise, the speaker who has been up and down the coasts of this jolly old world time without number using his trusty guitar and accomplishments as a sort of a ticket of admission, wove a spell over his hearers that rivalled in color the magnificent hues of the southern landscapes.

It is a long time since Sierra Madre audiences have been privileged to enter so wholeheartedly into such a wondrous realm as Mr. Kershner described in his rare and unaffected manner.

In "Brown Barriers," his newly finished book of the South Seas, he has faithfully depicted the existence of the natives in that worryless Eden. They have their bridge parties, too; but instead of lasting throughout a mere afternoon, they are known to endure for 48 hours.

When one player becomes exhausted, his hand is passed onto an obliging neighbor. And the prizes are, say, forty coconuts and three baskets of chickens.

Housework is accordingly made simple: the housewife goes to the shore for a salad; she shreds it into fine particles and places it in a coconut bowl, after which she squeezes juice from a lime over it and leaves it for a couple of hours. By the time supper is announced, perhaps by means of

## Avocado Growers To Survey Crop Loss; Plan Salvage

An interesting list of events will occupy avocado growers early in May in Whittier. "Present and Future Care of Frost-Injured Avocado Trees" will be the topic of various talks by avocado experts Friday evening, May 7. Saturday morning's program includes addresses on "How Frosts Are Caused and Predicted," "Effect of the Recent Freeze on the Packing and Marketing of Avocados," "Orchard Heating," and either a report on the investigations being conducted on tree and fruit damage, if completed by then, or one on fruit standardization. Saturday afternoon will be devoted to grower discussions and questions-and-answers.

Featuring the annual industry dinner program this year will be Prof. R. W. Hodgson of UCLA, just returned from a six month's stay in India, who will describe, with slides, his observations of various fruits in India and Egypt.

## JAYHAWKERS WILL PICNIC

ences. All take part, from the village firemen to leading citizens of the nearby metropolis.

"There is no age limit on Sierra Madre hobbyists, though most of them are middle-aged. One and all, they have reached the philosophy which finds a modest way of life and an expression of self preferable to achieving outstanding success in the world."

a huge pink cocleshell, for her lord and master may be in the forest, this fish is thoroughly cooked through the medium of the lime juice.

Clothes with their attendant caprices are no worry either, for the brilliant "hankie" suffices as a garment, as curtains, as a tablecloth, and as receptacle in which to catch the shrimps, even.

Going from 78 degrees above to 60 degrees below, Mr. Kershner deftly piloted his hearers to the Land of the Midnight Sun, which he visited with the MacMillan Expedition in 1931. Here too, the native is lovable and trusting, and one almost detected a note of nostalgia in the speaker's voice.

Several gorgeous trophies of his jaunts were displayed and their background graphically painted. A caribou coat and hood, gloves, numerous pairs of boots, a seal-skin robe, a priceless pair of pants from the foreleg of a deer, and a half a dozen superb white foxes "for the Mrs." comprised this collection.

The perfect workmanship seen in the fur garments can be ascribed to the womenfolk of the Northland, who, through ingenuity and instinct, contrive to fashion the great cumbersome skins into smooth, comfortable and supple apparel. This is managed in queer ways: partly through incessant "chewing" until the leather is pliable, and partly through minute stitching with their own awkward needles. The speaker said he was deeply grateful that he had studied surgery for in this way he was able to assist these people in sewing the heavy clothing with real needles.

—Mildred C. Bolms.

## INSULATION BOOSTS BUSINESS

The idea of home insulation, especially triple insulation, has definitely captured the imagination, and won the approval, of the home-owning public, according to John W. Lytle, distributor and

applicator of Johns-Manville building materials, whose Pasadena display rooms and warehouse are pictured above. "Last Sunday we opened for public inspection a triple insulated home at 2255

Sherwood Road, San Marino, and 507 interested visitors inspected it during the afternoon," Mr. Lytle reports. This home is insulated against fire, against heat and cold, and against wear. It will

be open this coming Sunday from 11 to 5, and on week-days from 1 to 5. It is located just east of the intersection of San Marino avenue and Sherwood Road, four blocks south of the San Marino city hall.

## City Gets \$523 Out Of Liquor Fees; County \$801,315

Allocation to Sierra Madre of \$523.12 as the city's share of the liquor license fees collected by the state during 1936 was announced yesterday by the state board of equalization.

The allocation represents 50 per cent of the total fees collected here, amounting to \$1046.25, the state's share of

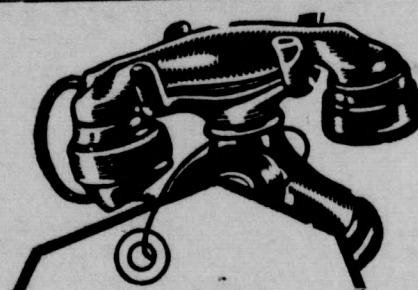

which goes into the general fund. Payment of the city's allocation will be made in the near future, officials said.

Los Angeles county will receive a total of \$801,313.82. Allocation to nearby cities are as follows: Arcadia \$2083.44; Monrovia \$974.08; Pasadena, \$18,767.54. Largest allocation in the county goes to Los Angeles, which will receive a total of \$518,733.79. Glendora gets the smallest allocation, only \$70.63. Claremont and West Covina, being "dry" towns, get nothing.

## McGROARTY STANDS PAT ON HIS OPPOSITION TO PACKING THE SUPREME COURT

### Convinced Overwhelming Majority Of People In His District Support His Stand

Convinced that an overwhelming majority of the people of this, the Eleventh Congressional district, are opposed to the President's proposal that he be allowed to pack the United States Supreme court, Congressman John Steven McGroarty says his opposition is unalterable. He has received hundreds of letters and petitions on the subject. For every one demanding that he support the proposition, he has received 97 opposing the idea that the judiciary shall be made subservient to the executive.

The Congressman from "the green Verdugo hills" made his position perfectly clear this week in a letter to Charles P. Ash, president and members of the Glendale Democratic Club. He wrote as follows:

"I beg to acknowledge receipt of your letter of the 13th instant and the Resolution of the Democratic Club of Glendale in which it is urged that I support Presi-

dent Roosevelt in his proposal with regard to the Supreme Court.

"In reply let me say that my unalterable stand on this proposal is set forth at length in my article in the Los Angeles Times of March 7th.

"The Resolution first calls attention to a statement that it was my intention to represent the will of the people of the 11th Congressional district rather than my own ideas, and in your letter you say the sentiment in the district is overwhelmingly in favor of the President's proposal. If letters and telegrams are any indication of the sentiment of the people of my district, then I am certainly representing the will of the majority for a compilation of the messages now in my files shows a ratio of 97 to 1 against the President's plan.

"While on the subject of letters and telegrams, let me thank you for the courteous tone of your letter, which differs from the abusive language used in the very few letters I have received in support of the President. An interesting sidelight on these letters is the fact that they present no argument whatsoever in favor of the bill, but simply take me to task for daring to oppose the President. They overlook completely my position in the matter which is simply this: I am against the bill—not the President personally. Feeling as I do about this type of legislation, I would oppose such a measure regardless of who presented it.

"The resolution, in concluding, urges that I correctly represent the voters who merely voted for me that I might have the opportunity of supporting the President. My promised support of the President naturally had reference to those future policies on which he had made himself clear in his campaign. I did not know, and nobody knew that he would present this plan to re-make the Supreme Court. Had I known I certainly would have told the voters of the 11th Congressional District that I would not under any circumstances follow him in such a proposal. During his own campaign for re-election he never mentioned such a thing. And in making the proposal now he ignores the stand taken by the Democratic National Convention in Philadelphia in its platform. Therefore, whatever fault you find with the situation must be found with the President and not with me.

"I stand in my opposition with great numbers of members of both Houses of Congress than whom no better Democrats ever walked in shoe leather. You have but to follow the newspapers to learn their names. Also, I find myself in the proud company of Senator Hiram Johnson who is, to my mind, now and has long been the most outstanding Progressive and Liberal in America. It is to him that we in California owe the progressive and liberal laws on our statute books that have resulted in placing the State Government in the people's own hands. It is to Hiram Johnson that we owe such liberal laws as the Initiative, the Referendum and the Recall. He drove the Southern Pacific Railroad and other big corporate interests out of California politics. He is among the bitterest opponents of the President's proposal to pack the Supreme Court. If the President's bill, as now drawn, comes to a vote in this Congress you will find out that what I tell you is true.

"I do not propose to follow blindly President Roosevelt or any other individual or organization in considering any question on which I have not previously committed myself."

### OBITUARY

### DRAMA GUILD DOINGS

Sixteen members of the Go-Getters attended a surprise party Friday evening at the Park House in honor of Howard DeWinstanley, now a member of the Senior Drama Guild. A program starring little Sally DeWinstanley, pupil of Mrs. Eakman, and games were enjoyed by the group. New officers are announced as follows:

Paul Montoya, president; Howard DeWinstanley, vice-president; Doris Pickett, secretary; Sylvia Colbert, treasurer, and Dorothy Hogan, publicity and program chairman.

Norma Hogan and a committee of five have been named to arrange the Senior Drama Guild's April dance, it was announced yesterday.

Members of the Jane Withers group of the Drama Guild celebrated with an Easter party, which was arranged by Mrs. L. C. Dillman. Games were played and were directed by Jackie Roos and Grace Jensen. Musical chairs were won by Mary Lovejoy and Buddy Stewart for the boys, Helen Askew competing for the girls. Winners of a bean game were Donna Jean Perry, Bobby Quittner and Betty Stewart. Mary Lou Lovejoy and Margaret Adwell, who planned the program, had each pupil offer a dramatic sketch. First award went to Sally DeWinstanley, who appeared for the first time and prompted her brother, Gundy.

Star awards went to Fegila Rosen, Betty Jean Askew and Virginia Hosford.

### Passing The Old Buck In Pasadena

Vast powers are delegated to the zoning committee of the Pasadena city planning commission by two new ordinances.

For example, all applications for special permits and zoning changes will be investigated by the committee, a hearing will be held and the matter decided entirely by the committee. The only appeal from the committee's decision is to the city directors and must be made within five days.

The city directors will pass on special permits and zoning changes only in case of appeal from the decision of the commission's zoning committee. They are also required to set up in writing reasons for their actions in cases where the zoning committee's decision is overruled.

## Have you seen this TRIPLE INSULATED HOME

Featuring Johns-Manville  
Asbestos Building Materials

at 2255 Sherwood Road,  
San Marino?

If not, by all means visit it at once while it is still open for PUBLIC INSPECTION. It is four blocks south of the San Marino City Hall and just east of the intersection of San Marino Avenue and Sherwood Road. Open Sunday from 11:00 to 5:00; on week-days from 1:00 to 5:00.

Here is a home insulated against FIRE, against HEAT and COLD, against WEAR. It is the most fire-proof, the most comfortable through summer heat and winter cold, the least costly to maintain, that modern science has been able to develop. Johns-Manville specifications and materials are used throughout. Whether you plan to build a new home, or modernize your old one, see this triple insulated home at once.

Bring your building prob-  
lems to us like many other  
Sierra Madre people have  
done. We can develop your  
job from the original idea to  
the delivery of a completed  
home.

# MODERNIZE and BUILD your home before Building Costs Go Up . . . . .

You'll never find a better time to  
put into effect that dozen and one  
changes you have planned for  
months on your property.

Faced with a rising market in raw  
materials, and a big increase in de-  
mand over supply, the wise, thrifty  
home owner and maker will lose no  
time putting his property in shape.

We work in full cooperation with  
Federal Housing Administration.

**Plant OLD TIME GARDEN SEED'S NOW!**

Have some of those charming old time flowers that your childhood memory so cherishes. Sow them now. Have an ever changing rotation of blooms from early spring 'till late autumn. A garden is truly not a garden without Zinnias. And as for Asters, Canterbury Bells, Larkspur and new African Marigolds, you simply must have them.

Call for a list of our choicest Zinnias and a collection of old-time subjects all at a special combination price.

**Our New Spring Garden Guide Is Ready mailed free on request**

In addition to the valuable seed facts it contains, it also tells you what, and how and when to plant, to realize that delightful old time garden of your dreams. Write for this Garden Guide—a postal will bring it to you.
